JUICE PLUS +

"I believe Juice Plus+ is the single best health product available anywhere."

Roger Green, M.D.

Seldom does a product come along that is so unique and beneficial that I feel a special desire to personally recommend it to my patients and friends. However, I am genuinely eager to share with you the healthful benefits of a product called Juice Plus+.

To my knowledge, no other product, over-the-counter or prescription, can equal Juice Plus+ in its ability to strengthen the immune system, neutralize free radicals, help prevent a wide range of diseases, energize you and genuinely make you feel good. And no other product of its kind has demonstrated the third-party research and independent scientific studies to document the effectiveness that Juice Plus+ has generated.

As physicians, we hear all kinds of erroneous and ridiculous claims made for nutritional supplements. I am certainly leery of such promotions and I'm not one who is into alternative medicine. However, Juice Plus+ appears to be a unique and beneficial product that we believe deserves special attention.

Medical studies have demonstrated the link between heart disease, cancer, degenerative processes and aging, and a process known as "free radical" damage in our bodies. Physicians tell us the best thing anyone can do to prevent free radical damage is to eat 5-9 servings of fruits and vegetables every day. These whole foods contain antioxidants that prevent the harmful effects of free radicals. Unfortunately, few of us ever eat our 5-9 daily servings of fruits and vegetables. That's why Juice Plus+ is just what the doctor ordered.

I personally take Juice Plus+ everyday and I would genuinely feel deprived if it were not available. The more I learn about Juice Plus+, the more impressed I am. It works where your body needs it. Your body knows what to do with it. And while you can't feel it preventing disease, most people who take Juice Plus+ genuinely feel better and have more energy.

I've enclosed some additional information so you'll be able to better appreciate why I'm so enthusiastic about Juice Plus+.

Juice Plus+ is an opportunity to improve your health forever.

Sincerely,

Roger E. Green, MD
